

FACE MASKS TO HELP PROTECT THE FRONT LINE

The DURABLE team have developed a Face Mask from materials usually used to manufacture filing products. An ordinary product turned into something unusual during these extraordinary times.

Face Masks provide a barrier and minimise the the exchange of droplets between people in direct contact.

- Shields the entire face
- Anti-glare, anti-condensation and sweat resistant
- Can be thoroughly disinfected and reused
- Allows a full range of head movements
- Fits all head sizes due to elastic headband
- Headband is padded for comfort
- Glass-clear visor is made from high quality plastics
- Visor can be lifted (when working at a computer for example)
- Open and remove the visor using the headband which avoids touching contagious material on the visor
